# INTRODUCTION

Use this guide to replace the lights of your Logitech G910.

## TOOLS:

- [Phillips #0 Screwdriver](#) (1)
  - [Metal Spudger](#) (1)
-

## Step 1 — Lights

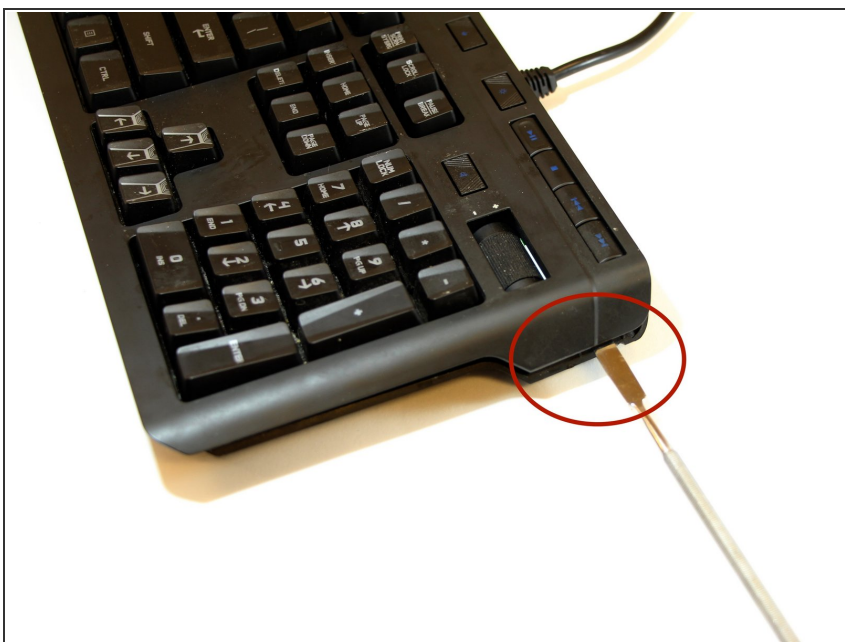

- Unplug the keyboard from the computer.

## Step 2

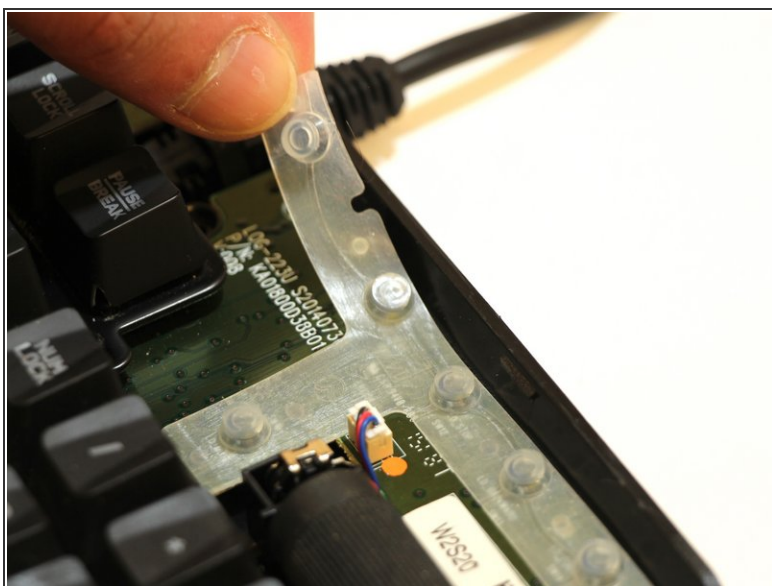

- Flip the keyboard and unscrew the 15 back screws. The screws in the palm rest must be unscrewed and the palm rest removed to access the 6 screws at the bottom of the keyboard. (There are 2 lengths of screws the shorter ones are for the palm rest) There are also 2 screws under the nonslip pads of the palm rest.

### Step 3

- Release the front part using a spudger or flat screwdriver to gently pry. Lift off carefully.

### Step 4 — Lift the film

- Gently lift up the plastic film in the top right corner.

To reassemble your device, follow these instructions in reverse order.
